

FACTSHEET

Eczema affects 5 million children and adults in the UK every year.

The Society is the only organisation in the UK devoted to improving the quality of life for people with eczema and their carers.

The Society provides practical support and information on the day-to-day management and treatment of eczema including:

- Confidential telephone and e-mail Helplines
- Fact sheets and information booklets
- Members' information pack and quarterly magazine

The Society also funds vital research into the cause and treatment of eczema and campaigns to influence health services for a better understanding of eczema and its effects.

The National Eczema Society receives no Government or Health Service funding.

The Society relies entirely on donations, legacies and membership subscriptions to fund
